Best Banking NPO 2016 - Liechtenstein

LIECHTENSTEIN BANKERS ASSOCIATION

Established in 1969, the Liechtenstein Bankers Association is the voice of the banks operating in and out of Liechtenstein. We profile the association and explore the services it offers.

The Liechtenstein Bankers Association was founded over 40 years ago by the three Liechtenstein banks existing at that time.

Since its foundation, the association has been safeguarding the interests of its member banks towards the government, the authorities, the public, and national as well as international organisations and federations, and has coordinated the joint activities of its members. The Board is the governing body and consists of the Chairman and representatives of six member banks. The Association is managed by the secretariat led by the general manager.

The LBA stands for market economy-based principles and for an efficient financial centre in Liechtenstein and in Europe with the highest standards. It understands itself as a service provider to its member banks. In its work the LBA is guided by openness, objectivity and reliability. By signing the ICMA Private Wealth Management Charter of Quality on a self-regulatory level and representing the whole Liechtenstein banking center, the LBA demonstrates the clear commitment to the highest common international standards of quality, compliance and good market practice which are as well the part of the guiding principles of the future strategy for the Liechtenstein banking centre set out in the Roadmap 2020.

The LBA is one of the country's most significant associations and plays a key role in the successful development of the financial centre. Member interests are pursued in accordance with the principles of sustainability and credibility. As a member of the European Banking Federation (EBF), the European Payments Council (EPC) and the European Parliamentary Financial Services Forum (EPFSF), the Liechtenstein Bankers Association is a member of key committees at the European level and plays an active role in the European legislation process.
