

Jonathan Cohen Robocap Founder & CIO

- Jonathan Cohen is a highly experienced finance professional with over 20 years of experience in thematic investment. He graduated in Management with a Major in Finance from the University of St Gallen in 2004.
- Jonathan Cohen's professional journey began with Bedrock SA, a multi-family office based in Geneva and London. There, he was hired as the equity analyst for an activist investor. Following his time at Bedrock SA, he joined Goldman Sachs where he was promoted to Associate Investment Professional within the Institutional Wealth Management team.
- In 2009, Jonathan Cohen became the CIO of Huet & Cie BV, an Independent Asset Manager based in Geneva and Zurich. During his tenure, he led a team of three analysts and managed the investments of the company's clients. Recently, he was the Senior Portfolio Manager of the US team of London & Capital Asset Management where he led a team of three portfolio managers.
- Apart from his professional experience, Jonathan Cohen has a keen interest in new technologies and frequently follows classes on robotics online and at Imperial College. He is also a private pilot and holds a Private Pilot License.
- Jonathan Cohen is fluent in English, French and German. His expertise in thematic investments and his passion for new technologies further distinguish him.
