

Toni Caradonna
Chairperson of the Board, Operal AG

- Toni studied climate and environmental physics. He was studying how the ocean breathes or in scientific language: He modelled the CO₂ uptake of the ocean. He became a purpose driven entrepreneur early in his career. He is driven by curiosity.
- He founded three companies and foundation for nature conservation in Switzerland.
- He built the first smart contract for the United Nations ever back in 2017.
- Toni is also very active in the gamification and loyalty space.
